Exposure to Covid-19 infection as a result of direct or close contact with others 16 Very High					•	 Two metre physical distancing between adults should be maintained. Two metre distancing between adults and children should be maintained.(recognised not always possible e.g. early years or ASN) Avoid assemblies or other typically large gatherings. Wherever possible in primary schools, keep children and young people within the same groups for the duration of the school day with the same teacher and support assistants. Adults in educational establishments do not need to wear face coverings as two metre distancing should be maintained, however may decide to opt to do so through personal choice. There may be occasions where this is not possible. Where adults cannot maintain a two-metre distance, are interacting face to face for 15 minutes or more, face coverings should be worn. 				4 Low					

•	Introduce a flexible approach to the physical reconfiguration of teaching	
	and non-teaching areas, taking account of hygiene, staffing, supervision and	
	individual learner and staff needs.	
•	Seating, desks and other heavy traffic work areas e.g. copier rooms should	
	be safely spaced to promote physical distancing.	
•	Decrease physical interactions generally by looking at staff and pupil	
	movement throughout the establishment.	
•	Consider one-way or keep left systems, staggered breaks and starts – all	
	staff and pupils should follow signs on the walls showing direction of	
	staircases. Breaks and starts will be staggered to avoid large crowds.	
•	Access classrooms directly from outside where possible.	
•	Encourage staggered use of staffrooms, break areas and offices to limit	
	occupancy at any one time. Encourage cleaning items after each use	
	including cooking equipment, crockery and cutlery – staff must use own	
	items, clean them after use and leave no items lying around. Staffroom	
	maximum capacity is 5 and meeting room is 3. GP area can also be used by	
	staff where required.	
•	No sharing of food and drinks including milk.	
•	Maximise outdoor space throughout the day ensuring those with complex	
	needs or disabilities are not disadvantaged and hygiene arrangements are	
	in place for shared equipment.	
•	Consider integrated procedures and guidance for pupils leaving and	
	returning to school e.g. lunchtime – pupils must follow hygiene procedures	
	when leaving and on return to school.	
•	Encourage parents to consider the most appropriate travel arrangements	
	including, as far as it is safe to do so, walking, cycling and scootering to help	
	reduce unnecessary travel on buses or public transport.	
•	Ensure that transport providers, including those via SPT, are following all	
	necessary government and industry advice to reduce risk.	
•	Any works, repairs or maintenance carried out within the establishment	
	should adhere to physical distancing and hygiene measures.	

	•	Recognise concerns raised by members of the BAME community including	
		supporting individual requests for additional protections in discussion with	
		staff, pupils and families.	
	•	Given current low levels of transmission in Scotland, those previously	
		shielding are now following the same advice as the general population.	
		Arrangements should be put in place for individual circumstances (such as	
		those with underlying health conditions) in line with any specific clinical	
		advice and assessment of risk, particularly where physical distancing cannot	
		always be maintained. Staff should use the South Lanarkshire Council Self-	
		Assessment form to help inform discussion with line managers on these	
		issues.	
	•	Floor markings, signage and posters to be used to keep employees	
		informed on things like maximum room capacity and direction of travel.	
	•	Designate a well ventilated room as an isolation space for anyone showing	
		symptoms of infection – this will be the PT office in Loch PS and Nursery.	
	•	Limit face to face meetings indoors and adhere to the identified capacity of	
		meeting rooms, staff rooms and areas bases.	
	•	Working from home may still be applicable.	
	•	Contractors, parents and visitors to be kept to a minimum.	
	•	Staff have clear advice on dealing with enquiries from the public.	
	•	Provide all necessary support to those requiring it to follow these measures	
		e.g. for those with visual impairment or limited mobility.	
	•	Staff and pupil movement between establishments including peripatetic /	
		supply staff should be kept to a minimum.	
	•	The first aid box should have supplies such as PPE to allow for enhanced	
		protection where required – a box of gloves are available in all	
		classrooms/playroom. Face masks are also available.	
Additional Local Concerns		·· ·	
To be completed by assessor			

Ensure that all staff, pupils and visitors are aware of the high importance of
frequent and thorough handwashing / sanitising.
Ensure that all staff and pupils frequently wash their hands with soap and
water for 20 seconds and dry thoroughly.
Ensure that sufficient handwashing / sanitising facilities are available –
sanitiser available at all entrances, entry to dining hall and in all
classrooms/playroom.
Ensure that all staff and pupils clean their hands on arrival at the setting,
before and after eating, and after sneezing or coughing.
Ensure that all staff and pupils use a tissue or elbow to cough or sneeze and
use lidded bins for tissue waste cleaning hands afterwards – lidded bins are
in all classrooms/playroom.
Ensure that help is available for staff and pupils who may require assistance
in accessing hygiene facilities.
Anti-viral sanitising wipes provided for regular personal use at computer
keyboards, photocopiers and telephones.
Ensure that all staff and pupils are encouraged not to touch their face.
Ensure that help is available for children and young people who have
trouble cleaning their hands independently.
High • Consider how to encourage young children to learn and practise these Low
habits through games (no outward singing).
The majority of staff in education settings will not require PPE beyond what
they would normally need when supporting children and young people in
their care, even if they are not always able to maintain a distance of two
metres from others. PPE will be provided but is only required in a very small
number of cases including:
✓ Where adults cannot maintain a two-metre distance and are interacting face to face for 15 minutes or means
face to face for 15 minutes or more.
✓ Work with children and young people whose care routinely already involves the use of DPE due to their intimate care needs, including
involves the use of PPE due to their intimate care needs, including
during changing in Nursery. Nursery staff should use the new changing
room when required. Where a child, young person or other learner becomes unwell with
 Where a child, young person or other learner becomes unwell with symptoms of coronavirus and a distance of 2 metres in the designated
area prior to parent collection cannot be maintained or there is risk of splashing from a cough, spit or vomit.

		 Any other task that would routinely involve PPE e.g. providing first aid. Ensure government / public health advice is followed for any member of staff, pupil or visitor showing symptoms of infection. Water dispensers can be used with care and those doing so should sanitise their hands before and after use. To reduce usage, staff and pupils should bring their own filled bottle each day which can be topped up during the day if required. Direct access by primary aged children should be avoided. Supervision may be necessary. 		
Additional Local Concerns To be completed by assessor				
Increased risk of exposure to Covid-19 as a result of poor environmental hygiene	12 High	 Prior to staff and pupils returning, a clean will take place in all areas including the use of electrostatic spraying. An enhanced cleaning regime will be in place including an increased focus on high intensity touchpoints such as door furniture (push plates, handles), wall furniture (light switches, sockets) and sanitary ware to ensure those spaces are sanitised more regularly. All areas will be electrostatically sprayed weekly with a protective covering. A Start Back kit will be provided to all establishments including disposable gloves, tissues, towel and soap dispensers, viral wipes and aprons. Introduce a clear desk policy and remove unnecessary items from classrooms and work areas to ensure all areas are more easily cleaned – all desks should be cleared at the end of the day, along with worktops and all surfaces. Remove soft furnishings, soft toys and toys that are hard to clean (such as those with intricate parts). Limit the use of shared resources, including those usually taken home. Keep bags off desks and worktops. Any shared materials and surfaces should be cleaned more frequently. Anti-viral sanitising wipes will be provided for regular use at computer keyboards, photocopiers and telephones. Lidded bins for tissues are emptied throughout the day. 	4 Low	

		 Where safe to do so it is good practice to keep windows and doors open to increase natural ventilation and reduce contact with door handles. Internal fire doors should never be held open (unless assessed and provided with appropriate hold open and self-closing mechanisms which respond to the actuation of the fire alarm system). Although Health Protection Scotland regard this as a non-airborne virus we have taken the following industry guidance from REHVA (European Collaboration Network): Ventilation Systems bring air into and extract air out of buildings and therefore should remain active – these have been switched on 24/7. Where air conditioning units cannot be fully fresh air intake these will be switched off. The opening windows or doors in these areas (except fire doors) should be used to regulate heat alongside the ventilation system. Server rooms will remain on as no personnel occupy these spaces. Consider regular meetings with cleaning staff to confirm cleaning regimes, adjust as necessary to take account of high traffic or problem areas and ensure that levels of supplies are maintained. If a pupil, member of staff or visitor has been confirmed as being tested positive for COVID-19 - the Facilities Officer will immediately arrange an electrostatic spray of the entire premise. The product used will decontaminate within minutes. 		
Additional Local Concerns To be completed by assessor				
Increased risk of exposure to Covid-19 and its effects as a result of poor communication	12 High	 All staff are aware of, and have access to, the full range of Corporate guidance on managing risks associated with Covid-19 including Education Resources Safe System of Work – Covid-19 Working Safely in Educational Establishments. All staff have been briefed on new working arrangements and understand the role they have to play. All staff have the opportunity to discuss new working arrangements on an ongoing basis and are aware of how to report concerns. 	4 Low	

	 Zero tolerance of symptoms should be in place and staff will follow strict compliance with current Government guidance in relation to Test and Protect and restrictions on movement. Staff understand Covid-19 infection symptoms and what to look out for. All visitors including parents, contractors and suppliers are advised not to enter the premise unless previous agreed by the management team. Contractors and suppliers are aware of local protocols for entering the premises and safe use of facilities such as toilets. The establishment provides regular, timely and clear communication about the approach they are taking to recovery. All children and young people and parents are aware of the new arrangements and controls within and their responsibility in taking these forward. Consider parental surveys/communications to encourage walking, cycling, scootering, park and stride and remind parents of responsible parking, drop off and pick up. The establishment has arrangements for good quality dialogue with pupils about the new measures and any changes. The establishment will ensure its approach co-ordinates with wider easing arrangements nationally and locally to help promote a coherent feel to provision of services and will consider designating a member of 	
	scootering, park and stride and remind parents of responsible parking, drop	
	• The establishment has arrangements for good quality dialogue with pupils	
	• The establishment will ensure its approach co-ordinates with wider easing arrangements nationally and locally to help promote a coherent feel to	
	management staff to act as a 'Covid Officer' to help take this forward.	
	Regular meetings required to ensure risk mitigation actions remain in place and resolve any issues arising. The 'Covid Officer' in Loch PS will be Miss Simpson (Acting HT).	
	• The establishment will inform all staff and follow all instructions in relation	
	to the following national programmes available to all establishments within South Lanarkshire :	
	 ✓ Test and Protect programme ✓ Fast access to Covid-19 testing for staff and pupils 	
	 Fast access to Covid-19 testing for start and pupils Enhanced surveillance programme for schools and nurseries

	1	

Increased risks due to long term closure of the building	12 High	 Property inspection arrangements will continue prior to schools and nurseries returning in August including required checks such as water, utilities, lifting equipment and fire controls. 	4 Low	
Additional Local Concerns To be completed by assessor				
Additional Risk Areas	12 High	 Consider Personal Risk Assessments for those employees deemed clinically vulnerable by NHS. Review existing Fire Evacuation Plans including PEEPs Review existing Health Care Plans, risk assessments and Behaviour Assessment and Support Plans (BASPSs) for children with more complex needs taking account of the controls above. Ensure that staff are fully aware of the wellbeing supports available to them including those via South Lanarkshire Council's Employee Assistance Scheme. Consider new guidance on supporting the mental health and wellbeing of children and young people. Staff should also review all Wellbeing curricular supports available to them including Scottish Government and Education Scotland Guidance and SLC related resources including Promoting Positive Relationships and Understanding Distressed Behaviour, Attachment Theory and Practice, Education Operating Procedure A30 - Supporting those involved in Violent Incidents and Autistic Spectrum Disorder (ASD Consultation). For all nurseries, the Head is required to complete a "Changes to Service Delivery due to Coronavirus (COVID-19)" notification to the Care Inspectorate by using the eforms. This will allow for your nursery to re-open and re-activate your registration. This will be completed in Loch PS by Miss Simpson (Acting HT). 	4 Low	
Additional Local Concerns To be completed by assessor				

Note on Manager Actions:

Heads and Managers should use this assessment to cover general and local matters specific to their establishment. This local information can be added above to create an overall action plan to help ensure everyone understands what is required of them and how they can best protect themselves and others.

You should review this document in partnership with staff and their representatives, adapt as necessary for your establishment, sign off and share with all persons involved. It is good practice to review these arrangements on an ongoing and regular basis with your team.
